

BETTER GRIP

with hard-wearing chains, automatic chains or sand spreaders

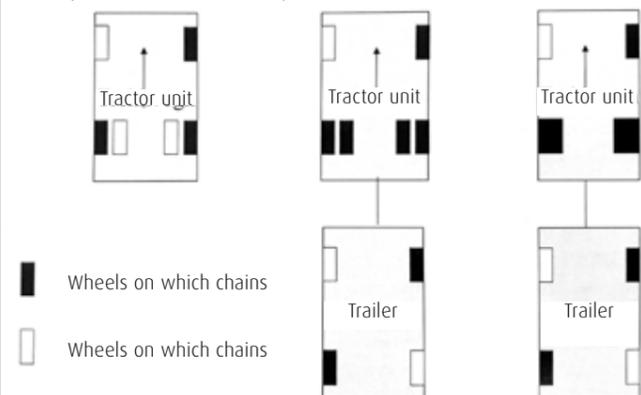

Rules for the use of chains

(Applicable in Norway only)

Number of chains to be carried:

- Tractor units with a total weight of over 3500 kg shall carry at least three chains, one of which will fit a front wheel and two for the drive wheels.
- HGVs consisting of tractor unit and trailer with a total weight for both units of over 3500 kg shall carry at least seven chains if the tractor unit has twin sets of drive wheels. One chain for a front wheel, four for the drive wheels and two for the trailer wheels.
- If the tractor unit has single drive wheels, or double chains are used, five chains will suffice, two of which fit the tractor unit drive wheels.

Excerpt from section 136 of the Norwegian Motor Vehicle regulations concerning the requirements for motor vehicles weighing over 3500 kg. (Applies only to vehicles driving in Norway, not in Denmark or Sweden).

"MEETS ALL REQUIREMENTS FOR A MODERN CHAIN"

 **Lilleseth
Kjetting**

A/S BEVOLA is the official distributor for Lilleseth Kjetting, the leading specialist within chains for HGVs and buses. These are high quality, strong, hard-wearing chains.

BEVOGRIP

sand spreaders

BevoGrip sand spreaders make life safer on winter roads in the Nordic countries.

BevoGrip has an automatic stop function and a specially-developed stainless steel heating element in the sand container, close to the spreader shaft. That means efficient spreading. There are no hard-wired fuses in the system. The electronic system is able to detect overloads itself.

This sand spreader is produced by BEVOLA in Denmark. We believe in high quality products, and therefore use suppliers such as Bosch and Norsk Backer for components.

BevoGrip comes in widths of 330 and 200 mm. The large model can contain up to 95 litres of grit and the small model contains 45 litres.

"WHEN QUALITY, LONG REPLACEMENT INTERVALS AND LOW WEIGHT ARE VITAL."

ROTOGRIP

automatic chain

- A brilliant automatic chain
- Effective traction
- Good braking on ice and slipper roads
- Remains effective at low speed
- Avoid getting stuck and helps reduce delays
- Economic, as it increases efficiency

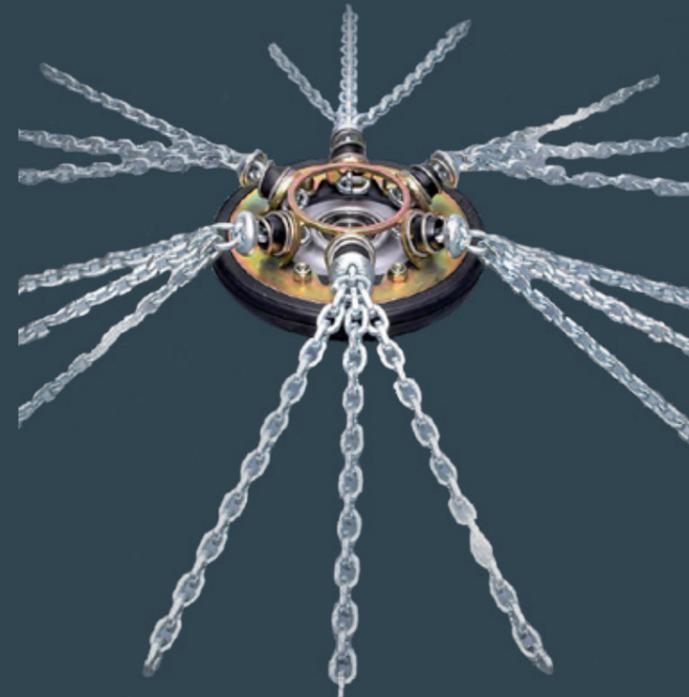

RotoGrip is simply activated on the move via switch in the cab. The chain fans out to form a 'mat' under the wheel.

Recommended uses:

- Light trucks
- Goods and service vehicles
- Snowploughs and towing vehicles
- Rescue vehicles such as fire engines, ambulances etc.
- Vehicles carrying ADR goods
- Buses and other public transport vehicles

"ACTIVATED BY PRESSING A SWITCH"

Since the company was founded in 1968, BEVOLA has strived to supply quality products for HGVs, drawbar trailers and semi-trailers. Apart from our global procurement concept that now extends to over 6,500 item numbers, BEVOLA has its own R&D and production of a range of products and solutions for mounting on HGVs on the Nordic markets.

The products and solutions BEVOLA is renowned for include:

- BevoBox – high quality toolboxes in a huge range of variations
- BevoGrip – sand spreader, specially developed for the Nordic market
- BevoPlan – the perfect concept for better utilisation of the load bed
- BevoNac – a strong axle concept designed to ensure longer life, less maintenance and stable ride

PRODUKTER AND SOLUTIONS
